3. All the revenue accounts, it will be seen, close with credit balances of larger or smaller amounts, but the transactions for the year 1877-78, considered apart from the accumulations of previous years, have resulted as follows:—

	First half-year.	Second half-year.	Total for the year.	Surplus.	Deficit.
PART I.—Jetties.					
Receipts ...	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
Receipts ...	3,91,382 1 0	4,10,518 12 0	9,01,900 13 0
Expenditure ...	2,59,797 1 9	5,94,709 0 3	8,54,506 2 0	52,605 5 0
PART II.—Inland Vessels' Wharves.					
Receipts ...	2,81,753 13 2	2,67,383 2 7	5,49,136 15 9
Expenditure ...	1,97,191 3 0	2,84,650 13 6	4,81,842 0 0	67,294 15 3
PART III.—Strand Bank Lands.					
Receipts ...	66,095 7 0	77,713 6 10	1,42,808 13 10
Expenditure ...	51,982 2 7	95,039 15 3	1,47,022 1 10	3,213 4 0
PART IV.—Port Proper.					
Receipts ...	2,44,578 11 7	3,65,592 14 3	6,10,171 9 10	53,945 11 11
Expenditure ...	2,28,589 2 11	3,27,636 11 0	5,66,225 13 11

4. The year's expenditure, however, as stated in the last paragraph, includes in every case large contributions from revenue for the construction of new works:—

Part I.—Jetty revenue contributed	Rs. A. P.
" II.—Inland Vessels' Wharves contributed	1,81,454 0 0
" III.—Strand Bank Lands contributed	36,654 0 0
" IV.—Port Proper contributed	1,16,300 0 0

and we observe that, with few exceptions, the whole of these amounts were withdrawn from the several revenue accounts and paid into the capital account within three or four days of the close of the year, remaining unexpended on the 31st March, the cash balance of the capital account on that date having been Rs. 6,37,204-2-6.

5. In the following cases the orders which have been produced to us in support of the transfers appears to be insufficient for the reasons stated:—

PART I.—*Extension of jetty heads and increase of export sheds, Rs. 80,000.*—This amount has not been sanctioned by the Lieutenant-Governor either in an annual estimate of income and expenditure under section 50 of Act V of 1870, or in a supplemental estimate submitted in the course of the year 1877-78 under section 51; nor, in the absence of such sanction, has the written assent of the Lieutenant-Governor to the excess expenditure been produced under section 52 of the Act. The orders of Government approving the annual estimates for 1878-79, to which we have been referred, contain no reference to the expenditure of former years, and cannot be regarded as sanctioning such expenditure under the sections of the Act which have been cited.

PART II.—*Balance of cost of three locomotives ... Rs. 8,000.*—The objection stated above applies to
" II.— Ditto of new steam road roller ... 2,750 } the foregoing charges.

Excess expenditure of Kidderpore wharf, Rs. 12,200.—In this case, besides the above objection, it appears that the plan and estimate of the work, for which the contribution is charged, have not been sanctioned by the Lieutenant-Governor under section 35 of the Act, and no appropriation of funds to meet the cost is therefore admissible. The amount should, in our opinion, be repaid to credit of the revenue account.

PART IV.—*Cost of heave-up boat, Rs. 10,000.*—The sanction of Government is wanting under one of the sections 50 to 52, as explained above.

6. In the account prepared under section 4 of Act III of 1872, showing the proceeds of the property recovered from the wreck *Asia* payable to the owners, we observe that the expenditure incurred by the Commissioners under section 3 of the Act has been held to include the auctioneer's commission on the sale proceeds, and 20 per cent on such commission or Rs. 1,137-3-3 has been credited to the revenue account as due to the Commissioners, although only the net amount of the proceeds after deduction of commission was received from the auctioneers and the commission was not expended by the Commissioners in the terms of the law.

7. The total expenditure incurred during 1877-78 in constructing a training-wall along the Howrah bank of the river was Rs. 9,112-5-3, and this amount has, we observe, been removed from the Depreciation Fund account (to which, as pointed out in paragraph 3 of our last report, the expenditure did not seem chargeable) and debited to the grant for constructing a retaining wall to Schaleh's Wharf. A report on the subject has been submitted to the Government, but the sanction of Government has not been received to the transfer of charge.

8. We subjoin a statement showing the amounts by which your actual receipts and expenditure for the year 1877-78 have either exceeded or fallen short of the budget figures, and we observe that the excesses of expenditure are about to be reported in detail for the sanction of the Government. It would be more in keeping, however, with the provisions of the law if supplemental estimates were submitted for sanction in the course of each year, in the manner prescribed in section 51 of the Act.

CALCUTTA MUNICIPALITY.—AUDITORS' REPORT, 1877.

No. 47A, dated Comptroller-General's Office, the 26th August 1878.

From—The Auditors of the Accounts of the Municipal Commissioners, Calcutta,
To—The Municipal Commissioners for the Town of Calcutta.

GENTLEMEN,

We have the honor to inform you that we have audited the cash and store accounts of the Corporation of Calcutta for the year ending 31st December 1877, and have found them to be correct.

2. The annual printed accounts of the several rate funds and loan accounts have been modified in form at our suggestion, and close this year with the balances with which the several accounts have been closed on the books, instead of, as heretofore, with only the cash balances. The transactions of the suspense and deposit accounts, which are unconnected with the revenue and expenditure proper of each fund, do not appear in the body of the account, but the outcome of these transactions is entered in a memorandum in explanation of the closing balances, showing clearly, on the one hand, in what proportions the balance is held in cash, stores, and recoverable advances; and, on the other, to what extent the aggregate balance is not available for the expenditure of the fund, being required to meet deposits and advances received during the year and remaining due and payable at its close.

3. The accounts show this year, also, in separate columns, as they did for the first time in 1876, the amounts by which the sums actually received and paid under each heading of the budget, major as well as detailed, have either exceeded or fallen short of the budget figures; and a statement is appended to the account of each fund showing the assets and liabilities of the fund at the close of the year as they appear in the books of the Corporation. These statements of assets and liabilities were also published for the first time at our suggestion for the year 1876. We would draw your special attention to these facts as it would seem, from a recent resolution of the Town Council, to which we shall presently refer, that it does not seem to be known that all this information is available in the published accounts for 1876.

4. We observe, however, that in the course of the year 1877, changes have been made in the classification of the receipts and charges of some departments, several detailed heads being transferred from one major heading to another; and hence the budget figures which appear in the second column of the account, and which have been similarly redistributed for purposes of comparison, will not always agree under major headings with the totals shown in the budget, though, with the exception stated in the following paragraph, the changes are made within the total of each budget, and the totals taken together of the several major headings affected by each alteration will always be found to agree. The following are the transfers referred to:—

DETAILED HEAD.	Amount.	TRANSFERRED	
		From	To
RECEIPTS.			
Fees for removing night-soil of private houses	7,000		
Fees for removing night-soil from tolah mehters' dépôt	42,000	{ Fees.	
Fees for removing night-soil from owners of public necessaries	1,300		{ Night-soil department.
Rent of municipal latrine	21,800	Rent.	
Grass-cutting	887	Fees.	Rents.
CHARGES.			
Trade refuse department	1,740	General expenditure, es- tablishment.	Conservancy.
Cost of collection of issuing warrants	15,213	{ General expenditure	Cost of collection.
Commission on fee from tolah mehters' dépôt	17,324	Ditto	Night-soil department.
Sanitary department establishment	5,000	Ditto	Health department.
Cremation of dead paupers	500	Rent	Night-soil department.
Rent of latrines and night-soil dépôts	2,000	Street watering	Conservancy gowkhana.
Keep of cattle, including drivers' wages	11,900	Miscellaneous	General expenditure.
Repair of office	1,000	Ditto	New drainage.
Cost of drainage connection of private houses	4,000		Rs. 800, road department. 800, drainage loan account.
Kotrung establishment			800, conservancy.
Establishment and cost of working engine at Entally...	11,200	Miscellaneous	1,600, road department. 800, street watering. 1,600, municipal railway. 1,600, new drainage. 800, slaughter-house. 1,600, water-rate. 800, lighting-rate. 1,600, drainage loan account.

5. Of these transfers the redistribution of the grant for the establishments of the Entally and Kotrung manufactories relieves the general fund of a charge of Rs. 3,561-0-9, and creates additional expenditure from the water-rate, lighting-rate, and drainage loan accounts as shown in the margin. For this the necessary sanction of the Commissioners in meeting has not been produced. The arrangement is also open to the objection that all supplies obtained from the manufactories during the year for the drainage or water-works have been paid for at full rates, and as those rates include a percentage to cover the cost of the establishment in question, there has been a double charge on this account against the drainage and water-rate accounts. Further, the net revenue from the tolah mehters' dépôt was estimated in the budget at Rs. 42,000 for the year, but only half this amount, or Rs. 21,000, appears in the account as the estimate for the first half year.

GENERAL FUND.

6. The receipts and charges of the General Fund for 1877, as shewn in the budget estimates, differed from the actual results as shewn in the accounts to the extent stated below, after allowing for additions made to the budget figures by subsequent sanctions of the Commissioners in meeting—

	Receipts.	Charges.	Surplus.	Deficit.		
					Rs.	Rs.
Estimates	17,06,810	17,01,795
Subsequent sanctions	1,23,500	2,37,741
Total	18,90,310	19,39,536	49,226
Actuals	17,21,734	16,61,333	60,401
More than the estimate
Less ditto	1,68,676	2,78,203

It would thus seem that whereas the budget anticipation of the year was a deficit of Rs. 49,226 to be met from the accumulated balance of the fund of former years, the actual transactions brought to account during the year produced a surplus of Rs. 60,401. The facts, however, are that the short payments under expenditure headings arise from the fact that the funds provided were not sufficient to meet the charges actually falling to be paid, and that the bulk of the apparent saving at the end of the year represents unliquidated liabilities which will have to be met in the current year.

7. The differences under the various headings of receipts and charges were as follow :—

Receipts.	More than the estimate in some detailed headings.	Less than the estimate in other detailed headings.	Charges.	More than the estimate in some detailed headings.	Less than the estimate in other detailed headings.
Rates	7,630		Interest account	2,30,986	
Taxes	20,614	5,773	Sinking Fund account	39,603	
Fees	1,502		Direction and management establishment		981
Fines and penalties	1,825	932	Cost of collection	2,927	479
Conservancy	8,251		General expenditure	6,456	6,971
Road department		1,63,353	Conservancy gowkhana	14,293	1,720
Street watering	232		Working charges	14,786	2,244
New drainage	9,451	45,000	Road department		15,229
Municipal railway	6,871		Street watering	2,579	2,120
Night-soil department		71,876	New drainage	15,323	9,502
Slaughter-house	3,930		Municipal railway	8,667	10,331
Municipal market		1,265	Health department		85
Hospitals and vaccination		8	Night-soil department	3,877	
Rents	1,673	4,280	Slaughter-house	2,156	2,765
Sale of land	2,538		Municipal market	1,406	2,385
Miscellaneous receipts	746	260	Hospitals and vaccination		34,841
Total	64,172	2,32,747	Rent charges	1,989	412
			Purchase of land	550	
			Miscellaneous expenditure	21,862	8,905
			Total	96,852	3,76,054

In the above statement the head of manufactories, which appears in the budget, has been omitted, the contribution from the general fund towards the cost of the establishment of the Entally manufactory having been distributed under other headings, as explained in paragraph 5, and the cost of the machinery having been debited to the miscellaneous heading (see page 19 of the account), while the so-called profit of both the manufactories will be found credited under miscellaneous receipt (at page 16).

8. As regards the revenues or receipts, the following are the only major headings under which the net result for the year of the excesses and deficiencies against the various detailed headings is a deficit in each case to the amount stated :—

	Rs.
Road Department	1,03,353
New drainage	35,549
Night-soil department	71,876
Market receipts	1,265
Rents	2,607

In the first two cases, however, the deficit has been produced by an obvious mistake in the budget figures, which include the following items as revenue to be realized during the year :—

Road Department—	Rs.
Probable value of stock on 31st December	80,000
Ditto ditto at other depôts ...	23,174
	1,03,174

New Drainage—

Value of drainage pipes	... 45,000
-------------------------	------------

The value of stores purchased is not entered as a charge against revenue, but treated merely as the conversion of a portion of the cash balance into stores which remain in hand as a valuable asset, and form part of the balance of the account. It is only when the stores come to be expended that their value is dealt with as a charge against revenue, and all losses and deteriorations in the value of stores are also so taken, while the revenue account is credited with accretions (if any) to the value of stores in hand or expended. Under these circumstances the balance of stores at the end of a year or the value of stores issued on payment to another fund cannot be treated as an item of realizable revenue. Hence, the sums detailed above ought to be disregarded in the comparison of the actuals with the estimated receipts for 1877, since there can never be any actual receipts to set against the estimate. Of the receipts of the night-soil department, as they are shown in the account, the first four items appear in the budget of the year and represent the revenue derived under the former system. The total of these items is Rs. 51,100, and adding to this sum the proportion, Rs. 21,000, of Tollah methers' depôt fees, omitted from the second column of the account as explained in paragraph 5, the result is Rs. 72,100, which represents the revenue which was estimated to be realized irrespective of the new assessment arrangements. Comparing these figures with the actual receipts, Rs. 38,675, the difference is Rs. 33,425, being the net loss of revenue under the four headings in question. On the other hand, the collections from assessment bills have amounted to Rs. 85,049, so that the net gain to the General Fund in revenue from the new arrangements, apart from the expenditure incurred, has been Rs. 51,624 irrespective of the Chairman's estimate of the new collections, which has proved excessive by Rs. 59,451. The deficit of Rs. 1,265 under market receipts would have amounted to a larger sum if, as pointed out by us in previous reports, the taxes paid by the tenants of shops in the Dhurrumtollah market had been credited, as they used formerly to be, to the several rate funds. The Commissioners have directed that this should be done in a resolution, bearing date the 4th August 1877, of the Finance Committee, subsequently approved by the Commissioners, but the instructions have not been acted upon. The deficiency under rents has been occasioned by the failure to realize a full year's sewer rent from the Suburban Commissioners, from whom Rs. 3,200 were due at the close of the year.

9. Of the remaining receipt headings which show excesses over the budget figures, we may remark generally that the receipts for the year appear to have been under-estimated, and as regards two of these headings, viz. Filling private tanks and drainage connection fees, we observe that the excesses in the realizations are more than counterbalanced by excesses of expenditure under the corresponding headings on the other side of the account, and that in both these cases the bulk of the transactions ought not, in our opinion, to be dealt with as revenue and expenditure of the General Fund. The expenses incurred in filling private tanks and draining private houses are recoverable from the proprietors of the tanks and houses, and the amounts ought to be shewn under distinct suspense headings from which recoveries of the advances and the amounts outstanding may be readily ascertained. Under present arrangements there is no security that the advances are fully realized, or realized at all.

10. If the budget figures for the receipts of 1877 be revised in the sense of the remarks at paragraph 8, the comparative memorandum, given at paragraph 6, will for receipts be modified as follows :—

	Receipts.	Rs.
Estimates	16,18,636
Subsequent sanctions	1,23,500
	<hr/>	<hr/>
Actuals	Total ...
	<hr/>	17,42,136
	<hr/>	17,21,734
	<hr/>	Less than the estimate ...
	<hr/>	20,402

Expenditure.

11. Of the headings detailed at paragraph 7, under which the expenditure has exceeded the budget and subsequent sanctions, the first calling for remarks is "Direction and management Establishment," and in regard to this heading we observe that there has really been no excess payment under it; Mr. Wright's salary from 6th April to 30th November, which is included in the expenditure, having been specially sanctioned by the Commissioners in Finance Committee Meeting of the 9th April 1877. On the other hand, we observe that under "Conservancy Gowkhana" the charge incurred in the purchase of cattle has not been fully stated. Cattle were purchased and paid for in 1877 to the value of Rs. 3,570-15-3, according to bills which have been produced to us setting forth this expenditure, and hence, according to the principle on which the accounts are framed, the entire amount so paid should have been treated as expenditure of the year 1877, and met from the budget grant of the year, or an additional sanction from the Commissioners should have been obtained to cover the excess charge. Only so much of the expenditure, however, as is covered by the budget grant for 1877, has been brought into the accounts, and the difference, Rs. 1,570-15-3, appears in the books at the close of the year as an outstanding advance, which is to be adjusted against the budget of the year 1878.

12. Under "Conservancy working charges" the expenditure incurred in filling private tanks being, as pointed out at paragraph 9, of the nature of a recoverable advance, should not, in our opinion, have been charged to the revenues of the General Fund; and so, also, under "New Drainage" the principal excess, Rs. 12,464-5, appears under the sub-head "House drainage establishments and contingencies," and is not an item of expenditure at all.

13. Under "Night-soil department" the only provision in the budget was the total of the following items :—

	Rs.
Commission on fees for tolah mehters' dépôt... 3,000
Sanitary department establishment 8,700
Repair of latrines and night-soil dépôts 2,000
	<hr/>
Total	... 13,700

Subsequently an advance of Rs. 10,000 was made to cover the expenses of the new arrangements, and eventually the expenses actually incurred to the end of December, as reported by the Chairman, viz. Rs. 1,50,327, were passed by the Commissioners. The latter sum included the original budget provision, and therefore involved an additional grant of Rs. 1,36,627. Subsequent adjustments, however, have increased the amount of expenditure to Rs. 1,54,203-9-1, and we observe that advances made for the construction of night-soil dépôts remained outstanding at the close of the year to the amount of Rs. 25,250. It has been stated at paragraph 8 that the net gain in revenue from the new night-soil arrangements was Rs. 51,624, and the expenditure adjusted during 1877 having amounted to Rs. 1,54,203-9-1, the net charge to the General Fund of the new arrangements, including the loss of the former estimated revenue, was Rs. 1,02,579-9-1, irrespective of the unadjusted advances, Rs. 25,250.

14. Under the heading miscellaneous expenditure the excesses have been numerous, the most important being—

	Rs. A. P.
Park Street improvement 1,107 1 6
Election charges 915 0 0
Profit and loss, being chiefly value of broken pipes, &c. 2,445 11 8
Petty cash stolen from cash office 94 5 3
Additions and improvements of store godown 5,683 5 3
New machine for Entally workshop 10,865 0 10

In none of these cases has the sanction of the Commissioners been produced to us in support of the payments.

15. Of most of the headings under which the expenditure is shewn to have been less than the estimate, it may be said that the differences represent *bond fide* savings when small in amount and unpaid liabilities when the amounts are large.

16. Under the Interest account, after allowing for a small payment of arrear interest for 1876, as detailed in a foot-note to the entry, and a saving of Rs. 4,500 on account of estimated interest on a loan of Rs. 2,00,000, which was not obtained from the Government, there remains a net sum of Rs. 2,26,495, representing interest due, but not paid in 1877. Similarly under Sinking Fund the saving is Rs. 2,000 on account of the loan referred to, and the net outstanding liability Rs. 37,612. These sums are independent of the refund which is due to the General Fund of Rs. 889 on account of arrear interest written off in excess in 1876 (see paragraph 25 of this report), and a charge of Rs. 1,321 said to have been incurred on account of compound interest.

17. Under "Hospitals and vaccination" the amount provided in the budget, viz. Rs. 30,000, did not represent the amount due and payable during 1877, as the contribution to the pauper hospital. There were unpaid arrears of the contribution at the close of 1876 to the amount of Rs. 60,000, and hence Rs. 90,000 should have been provided in the estimates, and that sum represents the outstanding liability on account of this contribution at the end of the year.

18. Under the other headings we are informed by the Chairman that the unpaid liabilities not entered on the books of the Corporation and not specifically provided for in the budget of 1878, amount to Rs. 51,850.

	Rs.
Interest	2,26,495
Sinking fund	37,612
Compound interest	1,321
Hospitals	90,000
Other liabilities as per Chairman's memorandum	51,850
	<hr/>
Deduct	4,07,278
	<hr/>
	889
	<hr/>
	4,06,389

19. We find, therefore, that the liabilities of the revenue account of the General Fund, which remained unpaid on the 31st December 1877, amounted to Rs. 4,06,389, and setting these figures against the nominal saving of Rs. 2,78,203 on the estimated expenditure as set forth in paragraph 6, we have a net excess over budget figures of Rs. 1,28,186. On the other hand, the revenue was less than the estimate by Rs. 20,402 (*vide* paragraph 10), so that the net deficit for the year on a comparison of the actual with the estimated figures is Rs. 1,48,588.
